## Amazon Marketplace Web Service (Amazon MWS)

I want to access my own Amazon seller account with MWS.

I want to use an application to access my Amazon seller account with MWS.

Application Name:

Application's Developer Account Number:  For example: 1234-1234-1234 or 123412341234

I want to give a developer access to my Amazon seller account with MWS.

Developer's Name:

Developer Account Number:  For example: 1234-1234-1234 or 123412341234

- The Amazon MWS will now show your seller account identifiers.

## Amazon Marketplace Web Service (Amazon MWS)

**Congratulations!**

**You can now access your Amazon Seller account with MWS**

These are your Account Identifiers and Credentials, which you will need to make successful MWS requests.

**Important:** Please do not navigate away from this page until you have made note of these Account Identifiers and Credentials or have printed this page. These Account Identifiers and Credentials will not be emailed to you.

\*If you are developing MWS Applications or otherwise providing MWS-related development services to other sellers, you will need to provide this developer account number to those sellers so that they can authorize you to access their Amazon seller accounts with MWS.

6. Copy and paste the Merchant ID (Seller ID), AWS Access Key ID, and Secret Key back on the Account Settings of the SourceProfit Application.

The screenshot shows a dialog box titled "Account Setting" with a red close button in the top right corner. The main title inside the dialog is "Amazon MWS Account (Amazon.com Only)". There are three input fields: "Merchant ID:", "Access Key:", and "Secret Key:". Below these fields, there is a message: "If you don't have this account. Please click the link below to register. The information is on the last page of this process". A blue link "Click here to Register ..." is positioned below the message. At the bottom of the dialog, there are two buttons: "UPDATE" and "Close".

7. **IMPORTANT** – Make sure there are no spaces in the beginning of the string of characters. If there are spaces, you will get an error message when you try to list on Amazon.

8. You are now ready to use SourceProfit.
